

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

INDEX TO VOL. XXII, YEAR 1859.

	PAGE
ACTON (William). <i>Observations on Illegitimacy in the London Parishes of St. Marylebone, St. Pancras, and St. George's, Southwark, during the year 1857, deduced from the Returns of the Registrar-General</i> . . .	491
Necessity of society no longer refusing to discuss social evils . . .	491
Poverty of the extant literature on the subject of illegitimacy . . .	491
Number of illegitimate births in the three parishes, and sex and age at death . . .	492
Occupation of the mother, showing large number of domestic servants . . .	493
Benefits of offering persuasion and encouragements to marriage to the father of the child . . .	494
Occupation of the fathers, labourers and domestic servants the most numerous classes, and the causes of ditto . . .	495-6
Affiliation of the child—difficulties created by the present Bastardy Act, and refusal of all legal assistance to the mother from the parish . . .	496-7
Number of illegitimate children receiving parish relief, January, 1858 . . .	498
Number of men taken into custody for disobeying Bastardy Orders, and their punishments . . .	498
Alteration recommended in the Poor Law, and mode of reaching the seducer through an action brought by the parent . . .	499
Comparative ages of the mothers . . .	499
Causes of infant bastard deaths, and their large proportion (nearly one-half) to births . . .	500
Frequency of inquests on illegitimate children, and large number of violent deaths among them . . .	501
Difficulties of proving infanticide . . .	502
Penalties under conviction rarely carried into effect . . .	503
Excess of deaths of infants from suffocation by bedclothes . . .	504
Proposition for a remedy by establishment of a Government Board to care for the seduced woman, to prosecute the seducer, &c. . .	504-5
The Foundling Hospital not carried out in the true intention of its founder . . .	505
— Its income and cost of inmates . . .	505
AGRICULTURAL SOCIETY (Royal), of England, progress of exhibitions from 1844 to 1859 . . .	429
AGRICULTURE in Ireland, statistics of, 1858-9, showing continued progress . . .	523
— extent in acres of cereal and green crops, and value of live stock, 1855-59 . . .	524
AMERICA (NORTH), UNITED STATES, deplorable condition of the aspirants to inferior offices under democratic party patronage at Washington . . .	53
political patronage, on a much larger scale in, than in England . . .	68
more consequent corruption and mispent taxation in, than in Europe . . .	68
fearful evils arising from the system of rotation in offices in . . .	68
ARMY, Prussian, state of, in 1858 . . .	171
French, magnitude in 1859 . . .	172
see <i>Officers</i>	
ASSOCIATIONS (CO-OPERATIVE), at Rochdale and Leeds, to provide food . . .	411
AUSTRALIA, Melbourne, course of trade and prices in 1852-9 . . .	421
Victoria, proposals for a new land policy in the colony . . .	423
New South Wales and Victoria. Manhood suffrage and the ballot in . . .	167(notr)

BAKERS , calculation of the business and profits of, in London	409
adulterations and frauds produced by competition of small capitals of	410
BAINES (Edward). <i>On the Woollen Manufacture of England, with special reference to the Leeds clothing district</i>	1
Want of accurate information as to its history and statistics	1
Difference between the woollen and the worsted fabrics explained	2
The process of felting or milling woollen cloth	3
Causes which have favoured the continuance of hand-loom weaving	4
List of the numerous and complex processes of the woollen manufacture	4-5
Dearthness of the raw material, and its causes	6
Average annual imports and values of wool, cotton, and flax, 1854-56	6 (note)
Reasons for the more rapid increase of the worsted manufacture, the greater employment in factories, the introduction of cotton warps, &c.	7
Comparative increase in all the textile manufactures from 1838 to 1856	8
Coarseness of English wool	9
Immense increase in the importation of, foreign merino and colonial wool, 1799- 1857	9
<i>Tables</i> of ditto, 1766-1857	10
Great increase in importations from our colonies	11
Calculations of annual produce and exports of British wool, 1800-1851	11-12
History of the woollen manufacture, settlement of Flemish weavers in England	13
Restrictions on the exportation of the raw material, &c.	13-14
Advocacy of removal of protection, by Earl Fitzwilliam	14
Counties in which the manufacture is most diffused	14
Comparative increase of population in ditto	15-16
<i>Tables</i> , &c., of exports of woollen and worsted goods, 1718-1857	16-18
Difficulties in arriving at statistics of persons engaged, with <i>Tables</i> of ditto	19-23
Wages in the Leeds woollen district, 1795-1857, and in 1858	24-25
Classes and proportions of operatives employed	26-27
The Leeds clothing district, its population and extent	28-9
Leeds cloth halls and clothing villages	79
Adoption of joint stock mills for preparing and spinning, by the hand loom weavers	80
The shoddy and mungo trade, manufactures from old woollen and worsted rags. — prosperity of Bailey, Dewsbury, &c., from its adoption	80
Use of cotton warps	81
Felted cloth	82
Annual value of the woollen manufacture, and how estimated	82-4
BANK OF ENGLAND.	
weekly account of the issue and banking departments:	
Fourth quarter, 1858 201	Second quarter, 1859 453
First quarter, 1859 334	Third quarter, 1859 561
review of the operations of, in 1857 (see <i>Valpy</i>).	378
BANKS, (COUNTRY) , amounts of promissory notes in circulation (in Great Britain):	
Fourth quarter, 1858 202	Second quarter, 1859 454
First quarter, 1859 335	Third quarter, 1859 562
BANK OF FRANCE , liabilities and assets, 1857-9	451
abstract of official returns, June—Sept., 1859	560
BANKS, London Joint Stock , abstract of reports for 1858	189
of United States, monthly averages, 1859	452, 560
BANK NOTES (Inconvertible), new scheme of, in Russia, by converting existing notes into notes bearing interest at 5 per cent.	533
BANKING and Commercial Society (new Russian), on the plan of the “Credit Mobilier”	527
BASTARDY ACT , difficulties created by, and refusal of legal assistance to the mother from the parish	496-7
see <i>Illegitimacy</i> .	
BATHERS in the Serpentine, number of, and of accidents, 1854-8	529
BEER , moral and social evils from competition “within the field” in the distribution of	415-20
universal adulteration of, at public houses	416 (note)
BEER ACT , evil effects of	417
BEER SHOPS , instances of competition in vice and depravity in	416-17 (and note)
BOATMEN , examples of extortion of, at Deal and Liverpool	394-5
BREAD , conditions of competition in manufacture and distribution of, in London and Paris	409-14

superior and cheaper modes of making in Paris than in England .	412
BRICKMAKING, important improvements in the rapidity and cost of,	
(Platt's machine)	425
Ditto, (Bradley's patent)	426
BRITISH ASSOCIATION for the Advancement of Science (Section F.)	
Economic Science and Statistics—List of papers read Sept. 1859 .	516
BROWN (Samuel). <i>On the Financial Prospects of British Railways</i> .	271
Benefits of the railway system to the public, and serious losses to the original investors .	271
Progress to 1857, miles opened and authorized, amount raised, proportion of gauges .	272-4
— average number of persons employed, passengers and goods' traffic, 1849-57, and total revenue .	274-5
— interest, dividends and capital	276-7
Reduction of interest on loans and preference share capital	277-80
Amount of annual profits, showing the ample character of the guarantee for payment of interest on loans, and their security	277-8
Suggestion for issue of bonds payable to bearer	278
Preference shareholders, and their relative position to the ordinary shareholders .	279-80
Working expenses, their average on receipts, high in 1855, and gradual decrease since .	280-1
— great diversity of amount of, in different railways, and capability of their reduction .	281-2
Traffic receipts, their gradual increase to 1857	282-3
— table of passengers and receipts for each class in 1857	283
— of summary of traffic for 1856-57, and averages from ditto	284-7
— of money results, 1856-57, and average of ditto	287-9
— of average total traffic per mile per week, 1852-8	290-91
Cessation of competition, its probable effects in benefiting shareholders to the injury of the public	292-3
The original expenses, an evil which can never be remedied	294
Favourable future prospects of the shareholders	294
Comparative financial results of high and low railway fares	295-6
BRUMMELL (Beau), notice of his case and mischievous influence, as an illustration of the immorality of the "Patronage" principle	58-9
BULLION and specie, gold and silver, imported and exported :	
Jan.-Dec. 1858 199 Jan.-June, 1859 447	
Jan.-March 1859 328 Jan.-Sept., 1859 556	
BURIALS, comparison of legislation for, on the Continent and in England .	388-90
see <i>Funerals</i> .	
CAB SERVICE of London, its management, expenses, gains, &c.	393-4, 397
return showing bad moral condition of cabmen	396
CATTLE FAIR at Ballinasloe, Oct. 1859, fall in price in sheep, but not of cattle	525-26
CHADWICK (Mr. David). Plan of reform in Parliamentary representation .	306
CHADWICK (Edwin). <i>On the progress of the principle of Competitive Examination for Admission into the Public Service, with Statistics of actual results and an investigation of some of the objections raised</i> .	44
Economical saving and superiority of competitive over the mere pass examination	44-5
Progress to the present time	45
Small number of situations really open to public competition	45-6
Extension of the principle to the Indian service, and Engineers of the Army .	46
Example in favour of competition cadets at Woolwich	46-7
Government intention of restriction to nominated cadets	47
Examples from Lord Coke, &c., showing the principle of open competition to be a constitutional right	48-9
Total ignorance of their duties, before Sebastopol, of young officers sent out from Sandhurst	49-50
Want of intelligence also, in the superior officers	50-1
Effects of the competition in raising the level of the education of the country .	51-3
Deplorable condition of the aspirants to inferior offices under democratic party patronage at Washington	53
Spenser's verses on waiting for Court favour	54
Arguments against the moral effects of competition, with reply	54-5
High moral and social position of the competitive candidates	56
Sir John McNeill's fears of the exclusion of moral qualifications by the competitive principle	57
— answered by examples of the immoralities of the patronage principle, from Raikes' Diary, Beau Brummell, J. Sadleir, &c.	58-9

CHADWICK (Edwin). *Competitive Examination—continued.*

PAGE

Regulations adopted in France as securities for qualifications in patronage appointments	60
Instance of the superior transaction of French Consular business in M. Lesseps	60
Abolition of patronage classes in Scotch Universities	61
Testimony in favour of non-injurious effects of competition on physical health	63-3
Government appointments usually obtained for the weak and more sickly youths of families	63
— example of ditto at the Public Record Office	63
— ditto in deterioration of the bodily character of officers of the postal establishment	64
Singular example of deficiency in geographical information in ditto	64
Bodily superiority of the successful candidates	64-5
Progress of the principle of competition in the colonies	66
Beneficial effects of its adoption in Canada and Malta	66-7
Development of political patronage government on a much larger scale in the United States than in England	68
More consequent corruption and mispent taxation in ditto than in Europe	68
Mr. Greely's statement of the fearful evils arising from the United States' system of rotation in offices	68
Lord Grey's opinion of the necessity of Political patronage	69
Beneficial adoption of competition in local administration	70
Want of means, among high political officers, of practical experience of the old system	71
Evasion of stringent examination in patronage candidates, and their deficiencies in spelling and arithmetic	73-4
Mr. J. S. Mill's arguments in favour of the employment of persons with abilities above the requirements of the appointments	74-5

CHADWICK (Edwin). *Results of different Principles of Legislation and Administration in Europe : of Competition for the Field, as compared with Competition within the Field of Service*

381

Table showing population per square mile, and comparative cost, expenses, and earnings, fares, dividends, and accidents of railways in European States	381-2
Statistical indications of fundamental errors in legislation	382
High death-rate in Russia, compared with the rest of Europe	383
Economic principle of regulated competition "for a field," as opposed to "within a field" of service	384
Errors of railway legislation in England as compared with France, giving 9 per cent. returns in the latter compared with 3·60 per cent. in the former	385
Evils of the competitive supplies of water in London	387
Beneficial savings and improvements, by consolidation of gas establishments in Paris	387-8
Comparison of legislation on the Continent and in England, for the interment of the dead	388-90
Evils and delays in ditto in the densely peopled districts of London	388
Excessive expense of funerals in London, compared with that of superior arrangements in Paris	389-90
Benefits in Paris of the consolidation of the omnibus system	390-2
Ignorant opposition and ill-will to the French Company in London	391 (note)
Number of omnibuses, horses, and men, expenses, and profits of the new Company	392 (note)
Comparison of area, houses and population of London and Paris	392 (note)
Evils attendant on the present cab service of London, with statistics of its management, expenses, gains, &c.	393-4
Economical and æsthetical benefits from the adoption of an enlarged administration of ditto	397
Examples of the extortion of hackney carriage drivers in New York, and of Deal and Liverpool boatmen, &c.	394-5
Criminal return showing bad moral condition of cabmen	396
Excessive difference between payment for services, and payments proportioned to the pressure of necessities	398
Inability to pay compensation for injury, among small proprietors	399
Ignorant objection of the public to the supposed monopoly of an omnibus company	399
Difficulties in carrying out a system of thorough house and town drainage and water supply, from competition of ignorance and inefficiency	400-1
Reasons in favour of the adoption of the term "wage class," in preference to that of "labouring classes"	401 (note)
Illustrations of the cheapness of combined sanitary works	402
Suggestions for the drainage, &c., of London, at a much cheaper rate than that authorized by Government	402-5
Cheap contracts of M. L. Duvoir, for warming and ventilation at Paris	406
Possibility of contracts being undertaken not for works, but the definite results of works, as reducing death rates, &c.	407
Instance of ditto in ship contracts for transportation	407 (note)
Definition of the author's principle of competition "for the field," and the extent to which it should be carried	408-9

	PAGE
CHADWICK (Edwin). <i>Results of Principles of Legislation—continued.</i>	
Conditions of competition in respect to the manufacture and distribution of bread in London and Paris	407-14
Calculation of the business and profits of an ordinary baker in London . . .	409
Adulterations and frauds produced by the competition of small capitals in the baking trade	410
Co-operative associations at Rochdale and Leeds to provide food	411
Superior and cheaper mode of bread making in Paris, under regulated competition, than in England	412
Further illustration of the evils of unlimited competition from the case of the bakers of the suburbs of Paris	413
Economical analysis of the comparative cost of production and distribution in the price of food	414
Moral and social evils from competition, within the field, in the distribution of beer	415-20
Waste of the poorer classes when they have commodities in bulk	415
Business of the licensed victualler, his interest against intemperance, but injury from a lower class of competitors	415-16
Universal adulteration of beer at public houses	416 (note)
Instances of competition in vice and depravity by beer-shop keepers	416-17 (\$ note)
Evil effects of the Beer Act	417
Enumeration of the excessive charges and inferior commodities, to which the wage class in England are subjected	418-20
The remedy not in the prevention, but in the regulation, of competition . . .	420
CHARITIES (London), incomes of, in 1859	426
CHARITY COMMISSIONERS of England and Wales, report for 1858, showing large numbers of returns from trustees, and improved administration of charities	534
CHERBOURG, naval arsenal at, statement of expenditure on, since 1783 (7 million pounds sterling)	309
COALWHIPPERS of the Port of London, condition of	429
COFFEE, character of trade in, in 1858	78
COLONIAL PRODUCE, character of trade in, in 1858	78-9
COLUMBIA (British), account of new gold fields in	176
COMPETITION for Government situations, see <i>Examinations.</i>	
beneficial adoption of, in local administration	70
“for the field,” as compared with competition “within the field,” of service, (see <i>Chadwick</i>)	381
definition and economic principle of	384, 408-9
CONSULAR SERVICE of France, its superior management and regulations to ours	60
CONTRACTS, possibility of their being undertaken, not for works, but the definite results of works, as reducing death-rates, &c.	407
CORN, average weekly prices (with monthly and quarterly averages) :	
Fourth quarter, 1858 200	Second quarter, 1859 450
First „ 1859 333	Third „ 1859 559
CORN TRADE, and crops in Europe in 1858	76-7
COTTON, average annual imports and values, 1854-6	6 (note)
COTTON CROPS of the United States, comparative, annual, from 1823 to 1859	531
exports, 1858-59	531
COTTON TRADE, imports, consumption, prices, &c.	87-90
COTTON WARPS, use of, in woollen manufacture	32
“CREDIT INDUSTRIEL,” account of its establishment in Paris in 1858 . . .	308
CRIME, on subjects connected with (see <i>Tartt</i>)	35
large proportion of, in towns during hours not employed in labour . .	373
special causes of, in Liverpool	374
(JUVENILE), more fostered in town than in the country	375 (and note)
— “Juvenile Offenders Act,” irregularities in administration of	39
“CRIMINAL JUSTICE ACT,” saving effected by	36
CRIMINAL STATISTICS, suggested improvements as to distinguishing resident and non-resident offenders in	43
CRIMEA, cost of war in, 1853-4, to Russia	528
CROTON AQUEDUCT, cost, construction, and supply	239-41

	PAGE
DANSON (J. T.). <i>Propositions and Inferences, with Statistical Notes touching the provision of Country Dwellings for Town Labourers, and in particular for those of the town of Liverpool</i>	362
Propositions relative to the non-necessity of town residence for those who supply the demand for town labour	362-70
Only two out of nine adult inhabitants of Liverpool natives of the town	362
Less than one in five inhabitants required in capacity of labourers	362-3
Little demand for services of women and children in Liverpool	363
Attempts to improve town dwellings in Liverpool, cost, rents, and dividends realized	364
Proposal of mess-rooms for cooking labourers' victuals, &c.	365-6
Deterioration in the character of Sundays in towns, from the desertion of the latter by the better classes	366
Profitable employment of railways in carriage of labourers from towns	368
Probable cost, and profitable investment of building cottages near railway stations	368-9
Increasing demand for the light labour of women and children in country district	369-70
Inferences drawn from the practicability and profitableness of the propositions	370-76
Railway stations at Liverpool, and nature of the neighbouring country	371-2
Calculation of the probable profit to the railways from the additional traffic to the new dwellings	372
Large proportion of crime in town among dense populations at hours not employed in labour	373
Special causes of crime in Liverpool, and large percentage of female criminals	374
Average cost of prosecutions summary, and by indictment, maintenance in prison, &c.	374
Juvenile crime more fostered in town than in the country	375 (and note)
Question as to the vacation of towns by the rich and middle classes, leaving the larger houses available for poorer tenants	377 (note)
DEBT, of British India, annual increase, decrease, &c., since 1800	460-3, 466
— additions to, in 1858-60	465
DISCOUNT, alterations in rate of, in 1858	95-96
DISEASES which prevail at particular periods of life	260-1
death rates from, and proportions, in all causes, 1847-55	261-6
annual proportion of deaths from each disease	268-70
DRAINAGE of London, suggestions for cheap	402-5
DUVOIR (L.), his cheap contracts for warming and ventilation at Paris	406
DWELLINGS (COUNTRY), for town labourers, propositions for provision of, (see <i>Danson</i>)	362
ECONOMISTS (POLITICAL), Congress of German at Frankfort, Sept. 1859—	
Proposals submitted	532
EDUCATION in Russia, excessive governmental centralization of	435-6
description of the educational system	486
ELECTIONS, party results, highest polls in those of 1857 and 1859	310
1832 to 1859—party results at close of each	311
ELECTORAL STATISTICS of England and Wales, 1856-8 (see <i>Newmarch</i>)	101, 297
see <i>Parliament</i> .	
EMIGRATION, total numbers, in the years 1843 to 1858	427
EXAMINATIONS (COMPETITIVE) for admission into the public service, progress of, and statistics of actual results (see <i>Chadwick</i>)	44
economical saving and superiority of, over mere pass examination	44-5
small number of situations really open to	45-6
extension of the principle to the Indian Service, and Engineers of the army	46
Government intention of restriction to nominated cadets	47
the principle of, a constitutional right	48-9
effects of, in raising the level of the education of the country	51-3
arguments against their moral effects refuted	54-5, 57
high moral and social position of the candidates	56
non-injurious effects of, on physical health	62-3
progress of the principle of, in the colonies, and beneficial effects	66-7
evasion of, in patronage candidates, and their deficiencies in spelling and arithmetic	73-4

EXCHANGES (Foreign), quotations on London, &c.:
